Dear Mr. Lynch:

On behalf of the Nicholas Newlin Foundation that operates the Newlin Grist Mill, thank you for the donation of plastic powder and pellets on April 15, 2016. The donation consisted of 100 lbs. of W/S-Powder and 442 lbs. of 2Q-FLD-60 Black pellets. This donation was given without receipt of goods or services.

The Newlin Grist Mill staff spent the past five years researching early colonial mills for its new exhibit "The Daily Grind: Life in a Colonial Mill". It worked with craftsmen from four states, Canada, and the United Kingdom to get everything correct in our reproduction. One of our biggest challenges was reproducing flour and grain in a way that would not attract pests. Your donation was the perfect answer to our problem. The powder looks just like flour and the pellets have convinced all of our visitors that the bags actually contain grain.

Thank you for this very generous donation. Our exhibit would not be as good without your support.

Thank you,

Tony Shahan
Newlin Grist Mill

The Nicholas Newlin Foundation/Newlin Grist Mill is and private non-profit eligible to receive tax deductible donations. A copy of our W-9 form is attached.
